Marshal's Minute-Acting State Fire Marshal Dale Simpson

Happy New Year! I am excited to lead the agency into a new year and look forward to working with all our partners and continue to foster and strengthen our relationships leading to a safer and better Illinois together.

January is Firefighter Cancer Awareness Month and sadly we are losing too many of our brothers and sisters to these awful diseases. According to research, firefighters have a 9% greater chance of being diagnosed with cancer and a 14% greater chance of dying from cancer than the general population. In 2019, OSFM, IFSI, and MABAS-Illinois partnered in the creation of the State of Illinois Preliminary Exposure Reduction Training project. This joint venture was developed to deliver critical firefighter health and life safety research, education, training and basic equipment to fire departments across the state. The intent of the project is to provide departments with free basic equipment that can be used for preliminary exposure reduction (gross decontamination or decon) of personnel on incident response scenes, as well as training on how to use those tools. The recommended decon equipment includes common household items that are easily obtainable and fit into a space the size of a standard 5-gallon bucket. If your department hasn't completed this training yet, there are still buckets available. Don't wait, visit <https://fsi.illinois.edu/decon/>. A combination of proper protective equipment, decontamination at the scene, and early detection of cancer through routine screening leads to earlier treatment, and better disease outcomes, including improved survival and reduced morbidity.

Community Risk Reduction (CRR) week kicks off on Martin Luther King Day, a National Day of Service, which is Monday, January 16, 2023. It runs through Sunday, January 22. CRR is a data-driven process to identify and prioritize local risks, followed by the integrated and strategic investment of resources (emergency response and prevention) to reduce their occurrence and impact. The goal of CRR is to build healthy, safe and resilient communities. The goal is to reduce the occurrence and impact of emergency events for both members of the community and emergency responders.

The OSFM helped establish the State of Illinois CRR Taskforce in 2020 and the taskforce is made up of members from all 14 Illinois fire service organizations. The mission of the taskforce is to promote the importance of Risk Reduction in Illinois by inspiring community ownership and providing coordinated resources. They continue to do this through hosting an annual conference and by working on the statewide risk assessment, which will help to identify risk across the state that will help lead to mitigation steps to reduce those risks. Visit their website at illinoisccr.com or follow them on facebook.

Brian Renhberg Memorial

The OSFM remembers our fallen brother Firefighter/Engineer Brian Renhberg. On Sunday, December 25th, 2022, Brian died in the line of duty. He served with the North Park Fire Department since 2008. Prior to being on North Park, he served with the Rockford Fire Department, Cherry Valley Fire Protection District, and Kirkland Fire Protection District.

He is survived by his wife Jennifer, son Jacob, and many other family and friends.

Governor JB Pritzker ordered all flags to be flown at half-staff from Sunrise Tuesday, January 3rd, 2023, till sundown Tuesday, January 3rd, 2023, in honor and remembrance of Brian.

Employee Spotlight

Roberto Lopez

Agency Diversity Officer/Hispanic Liaison

Where are you originally from? I grew up in Hoffman Estates, Illinois with one sister. My parents grew up in a farm in Jalisco, Mexico and eventually migrated to the United States in the 80's.

Hobbies? I am a big fan of travel and meditation. I have traveled to Spain, England, Canada, Mexico, Australia, and France. I enjoy world travel because it has provided me the opportunity to learn about other culture's values. In addition, travel allows me to reflect on things that really matter in life. During my time in Australia, I visited there for three weeks in four different cities (Melbourne, Adelaide, Sydney, Brisbane).

Another hobby of mine is meditation. I initiated meditation when covid was impacting everyone in different ways. I am passionate about meditation because it's a natural way of controlling thoughts and knowing how to refrain your brain in a positive matter. One of my favorite activities in the summer is to head to the lake front and meditate. I am always open for others to join in!

When you get in the car what type of music will be coming out of your speakers? Top trending songs with a good Spanish beat to dance too!

What's your favorite part of the job? I am excited to connect with our communities specifically communities that lacked outreach and investments in the past. I am thrilled to be engaging underserved communities and letting them know about our great agency.

What's something unique about you? I cool fact about me is that I love to announce soccer games in Spanish. Imagine turning your tv on and selecting the Spanish channel during a soccer match. Feel free to ask for a sample in person. 😊

Where is your favorite place to vacation? I am a big Chicago person, but I do enjoy heading to my parent's farm in Jalisco, Mexico and fully disconnecting with social media. Also, cool fact is that our farm used to be a tequila farm so there is no shortage of tequila there.

June's Parade in Auburn

Acting Illinois State Fire Marshal Dale Simpson, Special Agent Bobby Joe Brown and Canine Sasha took part in a special parade on Saturday, December 17 for a little girl in Auburn named June. She bravely fought neuroblastoma, a rare form of cancer.

The people of Auburn, with the help of Make-a-Wish Illinois, organized a parade that brought hundreds of people, vehicles, and organizations together to make June's wish come true. Sadly, June passed away on December 22nd.

Smoke Alarm Law Update

UPDATED ILLINOIS SMOKE ALARM LAW - Effective January 1, 2023 -

In 2017, the Illinois Fire Safety Alliance worked with the General Assembly to pass a law which will require Illinois residents to replace their old smoke alarms with the type that has a long-term, 10-year sealed battery beginning January 1, 2023. This would apply to residents that are still using alarms with removable batteries or alarms that are not hardwired.

What is the Updated Illinois Smoke Alarm Law?

- Since 1988, all dwellings in Illinois have been required to have smoke alarms.
- In 2017, Public Act 100-0200 was passed to update the Illinois Smoke Detector Act to reflect advances in alarm technology.
- Come January 1, 2023, any new smoke alarm being installed withing a single or multi-family home are required to be featured with a 10-year sealed battery.
- Smoke alarms in single or multi-family homes prior to January 1, 2023 may remain in place until they exceed 10 years from their manufactured date, fails to respond to operability tests, or otherwise malfunctions.

Exemptions

- Homes built after 1988 that already have hardwired smoke alarms.
- Homes with wireless integrated alarms that use low-power radio frequency communications, Wi-Fi, or other Wireless Local Area Networking capability.

To view the Illinois law in its entirety, visit www.IFSA.org/smoke-alarm-law

Illinois Fire Safety Alliance

BENEFIT OF 10-YEAR SEALED BATTERIES

HASSLE-FREE
No more climbing up the ladder to change batteries.

**NO LATE-NIGHT
LOW BATTERY
CHIRPS**

MORE SAVING
No more costly battery replacements for the life of the alarm.

Smoke Alarm Law Update

UPDATED ILLINOIS SMOKE ALARM LAW - How to Support your Community -

Be Alarmed!

A fire safety education and smoke alarm installation program administered cooperatively between the Illinois Fire Safety Alliance (IFSA) and the Office of the State Fire Marshal (OSFM). The program distributes fire safety education materials and 10-year sealed battery smoke alarms to fire departments in the state of Illinois. Fire departments then deliver the education and install smoke alarms in at-risk homes within their communities. The educational materials and alarms are provided to fire departments at no-cost.

Learn more about the program and request your smoke alarms by visiting www.IFSA.org/alarms.

Updated Public Education Messaging

At Daylight Saving Time, eliminate the use of “Change Your Clocks, Change Your Batteries” - there will be no more battery replacement! Begin using “Change Your Clocks, Change Your Alarms,” or “Change Your Clocks, Check Your Alarms.” The Illinois Fire Safety Alliance has recently created a Social Media Toolbox to help support your educational efforts, whether they be in a newsletter, social media, or elsewhere! Utilize these free resources and others at www.IFSA.org/resources.

Illinois Fire Safety Alliance
(847) 390-0911
www.IFSA.org | ifsa@ifsa.org

About the Illinois Fire Safety Alliance: Since 1982, the Illinois Fire Safety Alliance (IFSA), a 501(c)(3) nonprofit organization, has been bringing together persons and groups with a common interest in fire safety, burn prevention, and public education, and to promote programs and disseminate information related to fire safety and burn prevention. The IFSA also hosts a variety of burn survivor support programs, including Camp “I Am Me,” a unique week-long camp for children who have experienced severe burn injuries.

Be Alarmed Niles 1,000 Alarms

CONGRATULATIONS

NILES FIRE DEPARTMENT

Installs One Thousand 10-Year Battery
Smoke Alarms Within Community

The Illinois Fire Safety Alliance and Office of the Illinois State Fire Marshal recognizes and congratulates, the Niles Fire Department, for their outstanding contributions to fire safety education and the installation of 1,000 10-year battery smoke alarms, through active participation in the Be Alarmed! Smoke Alarm Installation Program.

In doing so, the Niles Fire Department has educated residents, young and old, on home fire safety and prevention methods and will directly reduce the number of fire-related injuries and deaths within their community.

Impact

- ♦ 1,000 10-year battery smoke alarms installed
- ♦ 196 homes protected with new smoke alarms
- ♦ 402 (254 high-risk) residents protected
- ♦ \$24,000 worth of life-saving equipment installed

Learn more about the Be Alarmed!
program at www.IFSA.org/alarms

www.IFSA.org
(847) 390-0911

www.sfm.illinois.gov
(217) 785-0969

"Niles FD recently hit a milestone of over 1,000 free smoke alarms installed throughout the village. The public interest has been positive, and requests continue to come in. Niles FD on-duty firefighters install the ten-year sealed battery smoke alarms in residents' homes, allowing opportunities to connect with our community."

~ Chief Marty Feld

Washington Be Alarmed Event

Acting State Fire Marshal Dale Simpson joined members from the Washington Fire Department and the Illinois Fire Safety Alliance to raise awareness about the importance of having working smoke alarms in residential homes. The also raised awareness about the update to the smoke alarm law that takes effect on January 1st.

Washington is a member of the Be Alarmed Program and was recognized for installing 866 alarms, while also providing lifesaving fire safety information to residents in their community.

O'Fallon Be Alarmed Event

Acting State Fire Marshal Dale Simpson joined members from the O'Fallon Fire Department and the Illinois Fire Safety Alliance to raise awareness about the importance of having working smoke alarms in residential homes. The also raised awareness about the update to the smoke alarm law that takes effect on January 1st.

O'Fallon is a member of the Be Alarmed Program and was recognized for installing 184 alarms, while also providing lifesaving fire safety information to residents in their community.

Decatur Be Alarmed Event

Acting State Fire Marshal Dale Simpson joined members from the Decatur Fire Department and the Illinois Fire Safety Alliance to raise awareness about the importance of having working smoke alarms in residential homes. The also raised awareness about the update to the smoke alarm law that takes effect on January 1st.

Decatur is a member of the Be Alarmed Program and was recognized for installing 463 alarms, while also providing lifesaving fire safety information to residents in their community.

Keep The Wreath Red Campaign

The OSFM's Keep the Wreath Red Campaign, which raises awareness about fire safety during the holiday season, wrapped up on January 2nd. This year, we are sad to report that 7 people lost their lives in fire related incidents across the state from December 1st through January 2nd. In brighter news, this year's deaths were much lower with 16 occurring in 2021 and 17 in 2020. It's simple, working smoke alarms and fire safety plans save lives!

We want to thank our friends and partners at the Illinois Fire Service Institute in Champaign and the Chicago Fire Department for hosting our wreaths again this year. We also displayed our wreaths outside of our Springfield headquarters and at our Chicago office.

Chicago Holiday Media Event

Left to Right: Chicago Fire Commissioner Annette Nance-Holt and Acting State Fire Marshal Dale Simpson

Acting State Fire Marshal Dale Simpson joined leaders from the Chicago Fire Department on December 9th to raise awareness about the importance of fire safety during the holiday season. A demonstration was conducted showing how quickly a fire can escalate if you have a dry Christmas tree in your home.

IFSI Minute

AN UPDATE FROM THE ILLINOIS FIRE SERVICE INSTITUTE

Happy New Year from the IFSI Team! We hope our friends and family across the state had a wonderful and restful holiday season. The IFSI Team returned from an extended holiday break on January 3 and are already back planning for another successful year.

BASIC OPERATIONS FIREFIGHTER BLENDED (BOF)

The first delivery of 2023 kicks off on January 14 at four training locations across Illinois. IFSI will welcome nearly 200 BOF candidates to training locations Streator, Cherry Valley, Sherman and Swansea for a formal orientation and course kickoff. These candidates will complete a blended training program, balancing instructor supported online learning and hands-on, weekend practical sessions over 18-weeks. Upon successful completion, students will have a pathway to certification. We wish the BOF students well as they begin this intense training program.

For complete program details and online registration:
fsi.illinois.edu

WINTER FIRE SCHOOL

IFSI is excited to offer the 28th Annual Winter Fire School, January 21-22 in Champaign. This elite training program will offer nine unique course options, to include hands-on, live fire, or classroom training programs. Students can register for up to 16 hours of training by designing a schedule that meets their personal and professional needs.

The training is elite and affordable. Attendees are also eligible for free hotel accommodations, thanks to the support of the Office of the Illinois State Fire Marshal.

MARK YOUR CALENDARS:

Mark your calendar for these 2023 special events:

99th Annual Fire College – June 2-4

IFA – Down and Dirty Firefighting Weekend – October 27-28

6th Annual Veterans in the Fire Service Day – November 4-5

Remember to follow our regular training highlight updates on all the IFSI social media channels.

We are looking forward to a great year!

Home Heating Safety

Heating Fire Safety

Follow these heating tips to help maintain a fire-safe home this winter.

Space Heater

- Keep anything that can burn, such as bedding, clothing and curtains, at least 3 feet away from the heater.
- Make sure the heater has an automatic shut-off, so if it tips over, it shuts off.
- Turn heaters off when you go to bed or leave the room.
- Plug portable heaters directly into outlets and never into an extension cord or power strip.
- Only use portable heaters from a recognized testing laboratory.

Fireplace

- Keep a glass or metal screen in front of the fireplace to prevent embers or sparks jumping out.
- Do not burn paper in your fireplace.
- Put the fire out before you go to sleep or leave your home.
- Put ashes in a metal container with a lid, outside, at least 10 feet from your home.

Wood Stove

- Make sure your wood stove is 3 feet from anything that can burn.
- Do not burn paper in your wood stove.
- Put the fire out before you go to sleep or leave your home.
- Have your chimney inspected and cleaned each year by a professional.

Furnace

- Have your furnace inspected each year.
- Keep anything that can burn away from the furnace.

Kerosene Heater

- Only use kerosene heaters from a recognized testing laboratory.
- Make sure the heater has an automatic shut-off, so if it tips over, it shuts off.
- Refuel your cooled heater outside.

Home Heating Safety

Carbon Monoxide Safety

Often called the invisible killer, carbon monoxide is an invisible, odorless, colorless gas created when fuels (such as gasoline, wood, coal, natural gas, propane, oil, and methane) burn incompletely. In the home, heating and cooking equipment that burn fuel can be sources of carbon monoxide.

- CO alarms should be installed in a central location outside each sleeping area and on every level of the home and in other locations where required by applicable laws, codes or standards. For the best protection, interconnect all CO alarms throughout the home. When one sounds, they all sound.
- Follow the manufacturer's instructions for placement and mounting height.
- Choose a CO alarm that is listed by a qualified testing laboratory.
- Call your local fire department's non-emergency number to find out what number to call if the CO alarm sounds.
- Test CO alarms at least once a month; replace them according to the manufacturer's instructions.
- If the audible trouble signal sounds, check for low batteries. If the battery is low, replace it. If it still sounds, call the fire department.
- If the CO alarm sounds, immediately move to a fresh air location outdoors or by an open window or door. Make sure everyone inside the home is accounted for. Call for help from a fresh air location and stay there until emergency personnel declare that it is safe to re-enter the home.
- If you need to warm a vehicle, remove it from the garage immediately after starting it. Do not run a vehicle or other fueled engine or motor indoors, even if garage doors are open. Make sure the exhaust pipe of a running vehicle is not covered with snow.
- During and after a snowstorm, make sure vents for the dryer, furnace, stove, and fireplace are clear of snow build-up.
- A generator should be used in a well-ventilated location outdoors away from windows, doors and vent openings.
- Gas or charcoal grills can produce CO — only use outside.

HOME HEATING EQUIPMENT

Have fuel-burning heating equipment and chimneys inspected by a professional every year before cold weather sets in. When using a fireplace, open the flue for adequate ventilation. Never use your oven to heat your home.

FACTS

- ! A person can be poisoned by a small amount of CO over a longer period of time or by a large amount of CO over a shorter amount of time.
- ! In 2010, U.S. fire departments responded to an estimated 80,100 non-fire CO incidents in which carbon monoxide was found, or an average of nine calls per hour.

Ride to Remember 9/11 Donation

Diane Hughes of Halls Harley Davidson and Ride to Remember 9/11 Event Organizer presents OSFM Fire Service Outreach Coordinator Lee Buxon with a check for \$600 to the Illinois Firefighter Memorial Foundation. The proceeds are from the Ride to Remember 9/11 event held each year in Springfield to mark the anniversary of the attacks and pay tribute to those who gave their lives that day to help others.

OSFM Holiday Party

The annual OSFM Holiday party brought staff together from our Chicago office, field staff and Springfield office on December 8th. This was the first time in over two years we were able to get an agency (family) photo around the holiday. Everyone enjoyed the food, the white elephant gift exchange provided a lot of laughs, and everyone enjoyed catching up with folks they don't get to see every day. Clark Griswold even made an appearance at the party! Thanks to all who helped plan this fun and amazing day.

Shout Outs/Kudos

The OSFM continued the agency tradition of adopting a family during the holiday season. Once again, members from OSFM contributed money and gifts to help the family have a bright and wonderful holiday. Not only did we meet the families wish list, but extra money was also left over and given to the family in the form of a gift card. A shout out to special projects who year-after-year organize, shop, and deliver the gifts.

Great Job!!!!

Mark Blough (Storage Tank Safety Specialist) receiving his retirement plaque from Scott Johnson. Mark retired on Dec 31, 2022. Thanks for your service, Mark!

Louie Hertter receiving his gold badge from Scott Johnson. Louie was recently selected to serve as the Southern Regional Manager for the Division of Petroleum and Chemical Safety.

The OSFM is sad to learn about the passing of Ken Oltman, a former Storage Tank Safety Specialist. The family is having a "Celebration of Life" service for him in Lakeland, FL. on January 21, 2023.

Cards can be set to:
Marty Oltman
307 Alice Dr.
Lakeland, FL.

Sparky® Says: Stay Safe and Warm This Winter

Dear Family,

It's winter! The days are shorter, the outside temperature is lower, and in some places it's cold, icy, and snowy. No matter where you live, winter brings a change in season and a **time to think about home-heating safety.**

The National Fire Protection Association (NFPA) has developed the following **safety tips** and **fun family activity** to help you stay safe this winter.

Best wishes for a warm and safe winter season!

Turn the
page for
a fun Family
Activity!

Sparky's Home-Heating Safety Tips

Hang this checklist on your refrigerator to remember to stay safe and warm this (and every!) winter.

Safety tips:

- ☐ Keep anything that can burn at least three feet from heating equipment (furnace, woodstove, or portable heater).
- ☐ Do not use your oven to heat your home.
- ☐ Portable space heaters should be turned off every time you leave the room and before going to bed.
- ☐ Make sure your fireplace has a sturdy screen to prevent sparks from flying into the room.
- ☐ Allow fireplace and woodstove ashes to cool before disposing in a metal container.
- ☐ Have heating equipment and chimneys inspected and cleaned every year.
- ☐ Install smoke alarms in every bedroom, outside each sleeping area, and on every level of the home. Test smoke alarms monthly.
- ☐ Install and maintain carbon monoxide alarms to avoid the risk of carbon monoxide poisoning.

Kids' Corner

**FAMILY
ACTIVITY**

A Warm Family Meal

Create a fun story the whole family will love! Work together to fill in the blanks (don't peek!). Then read the story aloud. Repeat again and again to make a new story each time! Have fun and be as silly as you want!!
